April 2024

This presentation contains certain “forward-looking statements” or “forward-looking information” (collectively “forward looking statements”) within the meaning of applicable Canadian securities laws. All statements, other than statements of historical fact, are forward looking statements and are based on expectations, estimates and projections as at the date of this news release. Forward-looking statements can frequently be identified by words such as “plans”, “continues”, “expects”, “projects”, “intends”, “believes”, “anticipates”, “estimates”, “may”, “will”, “potential”, “proposed” and other similar words, or information that certain events or conditions “may” or “will” occur. Such forward-looking statements are based on assumptions known to management at this time and are subject to risks and uncertainties that may cause actual results, performance or developments to differ materially from those contained in the forward-looking statements, including that the Financing may not be completed on the terms expected or at all, and other factors beyond the Company’s control. No assurance can be given that any of the events anticipated by the forward-looking statements will occur or, if they do occur, what benefits the Company will obtain from them. Readers are cautioned not to place undue reliance on the forward-looking statements in this release, which are qualified in their entirety by these cautionary statements. The Company is under no obligation, and expressly disclaims any intention or obligation, to update or revise any forward-looking statements in this release, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities laws.

At Empower we believe all people
should have access to an integrated
healthcare experience

Patient-focused with the goal of impacting
lives and the future of healthcare
outcomes through clinical trials and the
management of research sites

Best-in-Class Research and Clinical Trials Services

Growth Plan

- Leveraging Dallas & Los Angeles healthcare markets for clinical trials and research as a Site Management Organization (SMO)
- Six sites activated with eleven Principal Investigators (PI) under contract
- Currently eight trial applications underway with two trials awarded

Immediate Opportunities
