NOTES TO THE AMENDED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2019 and 2018

(in United States dollars, except where noted) - Unaudited

1. NATURE OF OPERATIONS AND GOING CONCERN

Empower Clinics Inc. (“Empower” or the “Company”) was incorporated under the laws of the Province of British Columbia on April 28, 2015. The Company is a leading owner and operator of medical cannabis clinics and developer of medical products in the US, focused on enabling individuals to improve and protect their health. This business is conducted through Empower’s wholly-owned Nevada, USA subsidiary, SMAART Holdings Corp., which in turn owns wholly-owns the following subsidiaries:

- i. Empower Healthcare Corporation (“EHC”) is an Oregon based company that, through its clinics in Oregon, and Washington State, provides physician services to patients in those states. EHC acquired the assets of Presto Quality Care Corporation (“Presto”) on June 12, 2015 and acquired the operations of Presto on July 12, 2015.
- ii. SMAART Inc. is an Oregon based company that does not have an active business.
- iii. The Hemp and Cannabis Company (“THCC Oregon”) and The Hemp and Cannabis Company Access Points Oregon (“THCF Access Points Oregon”), These are Oregon based companies that do not have active businesses.
- iv. The Hemp and Cannabis Company (“THCC Washington”) and The Hemp and Cannabis Company Access Points Washington (“THCF Access Points Washington”), are Washington based companies that do not have active businesses.
- v. CanMed Solutions Inc., is an Oregon based company that was incorporated on January 27, 2017. The Company does not have an active business.

The registered office of the Company is located at Suite 918 1030 West Georgia Street, Vancouver, British Columbia, Canada, V6C 1G8. The Company’s U.S. headquarters are at 105 SE 18th Avenue, Portland, Oregon.

Reverse takeover

On April 23, 2018, the Company completed its previously disclosed reverse takeover transaction (“RTO”) of Adira Energy Ltd. (note 4). Following the RTO, on April 30, 2018 the Company listed on the Canadian Securities Exchange (the “CSE”) under ticker symbol “CBDT”, on the OTC, part of the OTC Markets Group, under the ticker “EPWCF” and on the Frankfurt Stock Exchange under the ticker “8EC”. On closing of the RTO, the Company’s name was changed from Adira Energy Ltd to Empower Clinics Inc.

Share consolidation

On April 19, 2018, in anticipation of the completion of the RTO, Adira filed articles of amendment to complete an approved share consolidation of the Adira’s issued and outstanding common shares on the basis of 6.726254 pre-consolidated common shares for one post-consolidated common share. The share consolidation affects all issued and outstanding common shares, options and warrants. All information relating to basic and diluted earnings per share, issued and outstanding common shares (note 11(a)), share options (note 11(b)) and warrants (note 10), and per share amounts in these consolidated financial statements have been adjusted retrospectively to reflect the share consolidation.

Going concern

At March 31, 2019, the Company had a working capital deficiency of \$3,179,272 (December 31, 2018 - \$3,070,900), has not yet achieved profitable operations, has accumulated deficit of \$9,293,462 (December 31, 2018 - \$9,369,941). The Company has limited revenues and the ability of the Company to ensure continuing operations is dependent on the Company’s ability to raise sufficient funds to finance development activities and expand sales. These circumstances represent a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern and ultimately the appropriateness of the use of accounting principles applicable to a going concern. These unaudited condensed interim consolidated financial statements have been prepared using accounting principles applicable to a going concern and do not reflect adjustments,

which could be material, to the carrying values of the assets and liabilities. See note 16 for events after the reporting period.

2. BASIS OF PREPARATION

a) Statement of compliance

These unaudited amended condensed interim consolidated financial statements ("interim financial statements") were approved by the Board of Directors and authorized for issue on June 4, 2019.

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 - *Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. As such, these interim financial statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the years ended December 31, 2018 and 2017 ("annual financial statements").

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in the preparation of these interim financial statements are consistent with those applied and disclosed in note 3 to the annual financial statements with exception of the following:

i. Leases

Effective January 1, 2019, the Company adopted IFRS 16 Leases (IFRS 16) using the modified retrospective approach. The new standard requires a lessee to recognize a liability to make lease payments (the lease liabilities) and an asset to recognize the right to use the underlying asset during the lease term (the right-of-use assets) in the statement of financial position. The Company recognized the after-tax cumulative effect of initially applying IFRS 16 as an adjustment to opening retained earnings at January 1, 2019. Comparative information has not been restated and continues to be reported under IAS 17 Leases (IAS 17) and IFRIC 4 Determining Whether an Arrangement Contains a Lease (IFRIC 4).

The Company used the practical expedient not to reassess whether a contract is or contains a lease at January 1, 2019. Instead, the Company applied IFRS 16 only to contracts previously identified as leases under IAS 17 and IFRIC 4.

The Company also used the following practical expedients to account for leases at January 1, 2019:

- Applied a single discount rate to a portfolio of leases with similar characteristics.
- Relied on the Company's assessment of whether leases are onerous immediately before January 1, 2019.
- Applied recognition exemptions for operating leases when the underlying asset was of low value or the lease term ends within 12 months. The payments associated with these leases are recognized as an expense in operating expenses.
- Excluded initial direct costs when measuring the right-of-use asset at January 1, 2019.
- Used hindsight to determine the lease term when the contract contained options to extend or terminate the lease.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

These policies apply to contracts entered into or changed on or after January 1, 2019. A contract is a lease or contains a lease if it conveys the right to control the use of an asset for a time period in exchange for consideration.

To identify a lease, the Company (1) considers whether an explicit or implicit asset is specified in the contract and (2) determines whether the Company obtains substantially all the economic benefits from the use of the underlying asset by assessing numerous factors, including but not limited to substitution rights and the right to determine how and for what purpose the asset is used.

When assessing the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option or to not exercise a termination option. This judgment is based on factors such as contract rates compared to market rates, economic reasons, significance of leasehold improvements, termination and relocation costs, installation of specialized assets, residual value guarantees, and any sublease term.

The Company has elected not to recognize right-of-use assets and lease liabilities for low-value assets or short-term leases with a term of 12 months or less. These lease payments are recognized in operating expenses over the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid. The Company elected to not separate non-lease components from lease components and to account for the non-lease and lease components as a single lease component. Lease payments generally include fixed payments less any lease incentives receivable. The lease liability is discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The Company estimates the incremental borrowing rate based on the lease term, collateral assumptions, and the economic environment in which the lease is denominated. The lease liability is subsequently measured at amortized cost using the effective interest method. The lease liability is remeasured when the expected lease payments change as a result of new assessments of contractual options and residual value guarantees.

The right-of-use asset is recognized at the present value of the liability at the commencement date of the lease less any incentives received from the lessor. Added to the right-of-use asset are initial direct costs, payments made before the commencement date, and estimated restoration costs. The right-of-use asset is subsequently depreciated on a straight-line basis from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

For leases previously classified as operating leases, lease liabilities were measured at the present value of the remaining lease payments, discounted using the Company's weighted-average incremental borrowing rate, calculated in accordance with IFRS 16, at January 1, 2019, of 6%. Associated right-of-use assets for certain property leases, elected on a lease-by-lease basis, were measured retrospectively as though IFRS 16 had been applied since the commencement date. Other right-of-use assets were measured at the amount equal to the lease liabilities. The right-of-use asset was adjusted by the amount of any prepaid, accrued lease payments, or acquisition lease advantages or disadvantages relating to that lease and recognized in the statements of financial position as at December 31, 2018.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The lease liabilities as at January 1, 2019 can be reconciled to the operating lease commitments as of December 31, 2018 as follows:

Operating lease commitments as at December 31, 2018	\$	172,040
Weighted average incremental borrowing rate as at January 1, 2019		6%
Lease liability as at January 1, 2019	\$	153,361

As a result of the initial application of IFRS 16, in relation to the leases that were previously classified as operating leases, the Company recognized right-of-use assets of \$148,364 and lease liabilities of \$153,361 as at March 31, 2019.

The Company has recognized depreciation and interest cost instead of rent expense. During the three months ended March 31, 2019, the Company recognized depreciation expense of \$24,675 and interest expense of \$2,056 in relation to the leases.

The right-of-use asset consists of the following:

ii. Critical judgements and estimates

The Company's management makes judgements in the process of applying the Company's accounting policies in the preparation of its interim financial statements. In addition, the preparation of the financial statements requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The Company's interim results are not necessarily indicative of its results for a full year. The critical judgements and estimates applied in the preparation of these interim financial statements are consistent with those applied and disclosed in notes 2(d) and 2(e) to the annual consolidated financial statements with exception of the following:

Leases as a result of adopting IFRS 16

Identifying whether a contract includes a lease

IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset. The Company had to apply judgment on certain factors, including whether the supplier has substantive substitution rights, does the Company obtain substantially all of the economic benefits and who has the right to direct the use of that asset.

Estimate of lease term

When the Company recognizes a lease, it assesses the lease term based on the conditions of the lease and determines whether it will extend the lease at the end of the lease contract or exercise an early termination option. As it is not reasonably certain that the extension or early termination options will be exercised, the Company determined that the term of its leases are the lesser of original lease term or the life of the mine. This significant estimate could affect future results if the Company extends the lease or exercises an early termination option.

iii. Basis of consolidation

These interim financial statements include the accounts of the Company and its subsidiaries. All amounts are presented in United States dollars, which is the functional currency of the Company and each of the Company's

4. THE TRANSACTION

On April 23, 2018, S.M.A.A.R.T Holdings Inc (“SMAART”) completed the acquisition with Adira Energy Ltd. (“Adira”), pursuant to which SMAART amalgamated with 1149770 B.C. Ltd., a wholly-owned subsidiary of Adira, to form Empower Healthcare Corporation, resulting in the indirect acquisition by SMAART of all of the issued and outstanding securities of Adira (the “Transaction”). This resulted in a reverse takeover of Adira by the shareholders of Empower Healthcare Corporation.

In connection with the Transaction completed on April 16, 2018, the Company changed its name from “Adira Energy Ltd.” to “Empower Clinics Inc.” and consolidated its existing common shares on the basis of one common share for each 6.726254 existing common shares of the Company.

At the time of the Transaction, Adira did not constitute a business as defined under IFRS 3; therefore, the Transaction was accounted for under IFRS 2, where the difference between the consideration given to acquire Adira and the net asset value of Adira was recorded as a listing expense to net loss. As Empower Healthcare Corporation was deemed to be the acquirer for accounting purposes, these condensed interim consolidated financial statements present the historical financial information of Adira up to the date of the Transaction.

The Transaction closed and the Company acquired, on a one for one basis, all issued and outstanding shares of Adira in exchange for 48,337,225 common shares of the Company at a deemed price of \$0.02 (C\$0.03).

5. PROMISSORY NOTE

On January 11, 2019, pursuant to the completion of the sale of assets held for sale, the Company acquired a promissory note in the amount of \$122,500. The promissory note accrues interest at a rate of 6% per annum and is due in full on February 1, 2021. The amount is secured by the land and building sold.

14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

a) Fair value measurement of financial assets and liabilities

The Company has established a fair value hierarchy that reflects the significance of inputs of valuation techniques used in making fair value measurements as follows:

Level 1 – quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. from derived prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data.

As at March 31, 2019 and December 31, 2018, none of the Company's financial assets and liabilities are measured and recognized in the consolidated statements of financial position at fair value with the exception of the conversion liability (note 9) and warrant liability (note 10).

The carrying values of cash, accounts receivable, prepaid expenses, due from related parties, bank indebtedness, accounts payable and accrued liabilities, and amounts due to related parties approximate their carrying values due to their short-term nature.

As at March 31, 2019 and December 31, 2018, there were no financial assets or liabilities measured and recognized in the consolidated statements of financial position at fair value that would be categorized as Level 2 or Level 3 in the fair value hierarchy above with the exception of the conversion liability (note 9) and warrant liability (note 10), which are a Level 3 fair value measurement.

15. RELATED PARTY TRANSACTIONS

The Company's related parties include key management personnel and any transactions with such parties for goods and/or services that are made on regular commercial terms. During the three months ended March 31, 2019 and 2018, the Company did not enter into any transactions with related parties outside of compensation to key management personnel as disclosed below.

Key management are those personnel having the authority and responsibility for planning, directing, and controlling the Company. Salaries and benefits, bonuses, and termination benefits are included in operating expenses and share-based payments are recorded as share-based payment expense or share capital.
